

# MINTABLE TRADE

The Future of Wealth, Minted Today.

# INTRODUCTION

MintableTrade is a next-generation NFT and cryptocurrency platform where anyone can mint, trade, and earn with ease. We turn the complexity of blockchain into a simple, profitable experience, empowering users to create NFTs, invest in high-return packages, and generate passive income without technical barriers. Whether you're a creator, collector, or investor, MintableTrade is your gateway to transforming digital ideas into real wealth. Backed by a secure, transparent system and a vision for global adoption, we're building a community where creativity fuels opportunity and every investment opens the door to financial freedom.

# OUR VISION & MISSION

## VISION

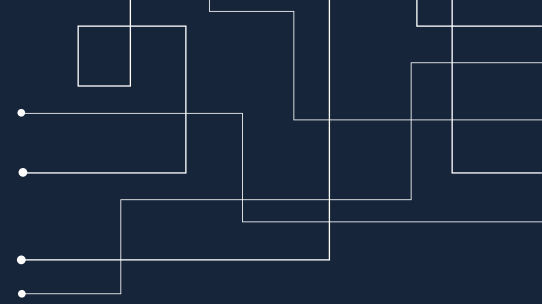

To be the world's most trusted and profitable NFT and cryptocurrency platform, enabling anyone to earn without limits through secure, transparent, and innovative blockchain opportunities.

## MISSION

Our mission is to simplify blockchain for the world, giving creators, collectors, and investors a safe space to mint, trade, and grow wealth. We aim to deliver high-return opportunities, multiple fund growth strategies, and reliable backup plans that ensure every user can achieve lasting financial freedom.

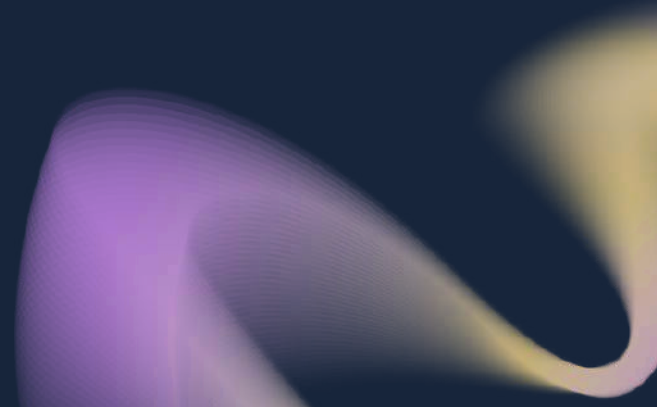

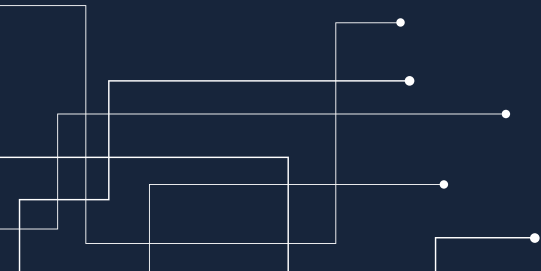

# OUR STORY...

The world of NFTs and cryptocurrency promised a new era of wealth, but for most people, it remained confusing, risky, and out of reach. We saw a gap a need for a platform where anyone could earn without limits, not just the tech-savvy few. That's why we created MintableTrade in 2019: a secure, transparent, and profit-focused ecosystem that turns ideas into assets and investments into unstoppable growth. From day one, our goal has been clear to provide simple tools, powerful earning opportunities, and multiple fund growth strategies backed by strong safety nets. Today, we're not just building a platform; we're building a global movement, giving people everywhere the power to control their financial future and thrive in the blockchain era.

# MARKET OVERVIEW

## NFT Market

Valued at over \$20 billion in 2024, with projections to exceed \$80 billion by 2030, driven by increasing adoption in art, gaming, collectibles, and real-world asset tokenization.

## Cryptocurrency Market

Currently valued at over \$2 trillion, with Bitcoin, Ethereum, and altcoins becoming mainstream investment choices for individuals, institutions, and even governments.

## Forex Market

The world's largest and most liquid financial market, with a daily trading volume exceeding \$7.5 trillion in 2025, offering vast opportunities for high-frequency and strategic trading profits.

## Passive Income

With global interest rates remaining low, millions of investors are seeking alternative, high-yield opportunities—making blockchain-based earning platforms a powerful growth sector.

# OPPORTUNITY FOR MINTABLETRADE

By seamlessly combining NFT creation, secure cryptocurrency investments, and diversified passive income strategies into a single, user-friendly platform, MintableTrade is strategically positioned to dominate a rapidly expanding, multi-billion-dollar global market. This unique approach not only empowers users with unlimited earning potential but also incorporates advanced risk management systems, ensuring consistent, sustainable growth while minimizing exposure to market volatility.

# HOW MINTABLETRADE MULTIPLIES WEALTH

Multiple Revenue Streams – We generate profits through NFTs, cryptocurrency trading, forex markets, and real-world asset tokenization, ensuring our income is not dependent on a single market. With a team of professional traders—each with over 10 years of experience—we efficiently multiply investor funds through strategic activities including cryptocurrency and NFT trading, presale coin investments, virtual metaverse land acquisitions, forex trading, and other high-potential international business ventures. Backed by a large, highly skilled support team, we leverage expertise, precision, and global market opportunities to consistently deliver exceptional returns.

# ANTPOOL MINING

Mintable Trade has been consistently generating strong income from Bitcoin mining through Antpool since 2019. Alongside mining, our expert team also diversifies into cryptocurrency trading, NFTs, Forex, and other global markets, ensuring we deliver more than what we commit. With a powerful strategy and trusted partnerships, Mintable Trade continues to build unmatched growth opportunities for all investors."

# CAPITAL WITHDRAWAL

MintableTrade offers a rare and investor-friendly feature that allows you to withdraw your principal amount at any time, subject to specific conditions. For example, if you invest \$1,000 and earn 15% ROI + 15% shares monthly for 3 consecutive months, you have the option in the 4th month to withdraw your original capital. In such a case, the profits earned during the previous 3 months, along with a 15% exit fee, will be deducted from the withdrawal amount. This system is designed to give investors maximum safety, flexible access to their funds, and the confidence to invest without fear—making MintableTrade a truly trustworthy and transparent platform.

# TYPES OF INCOMES

We offer multiple income opportunities for our investors, with our top 5 income streams carefully designed to maximize profits, provide consistent returns, and create long-term financial growth.

**DAILY TRADE INCOME**

**TRADE LEVEL INCOME**

**PRE-SALE COIN INCOME**

# LET'S TALK ABOUT OUR FUTURE PROJECTS

The Future of Wealth, Minted Today.

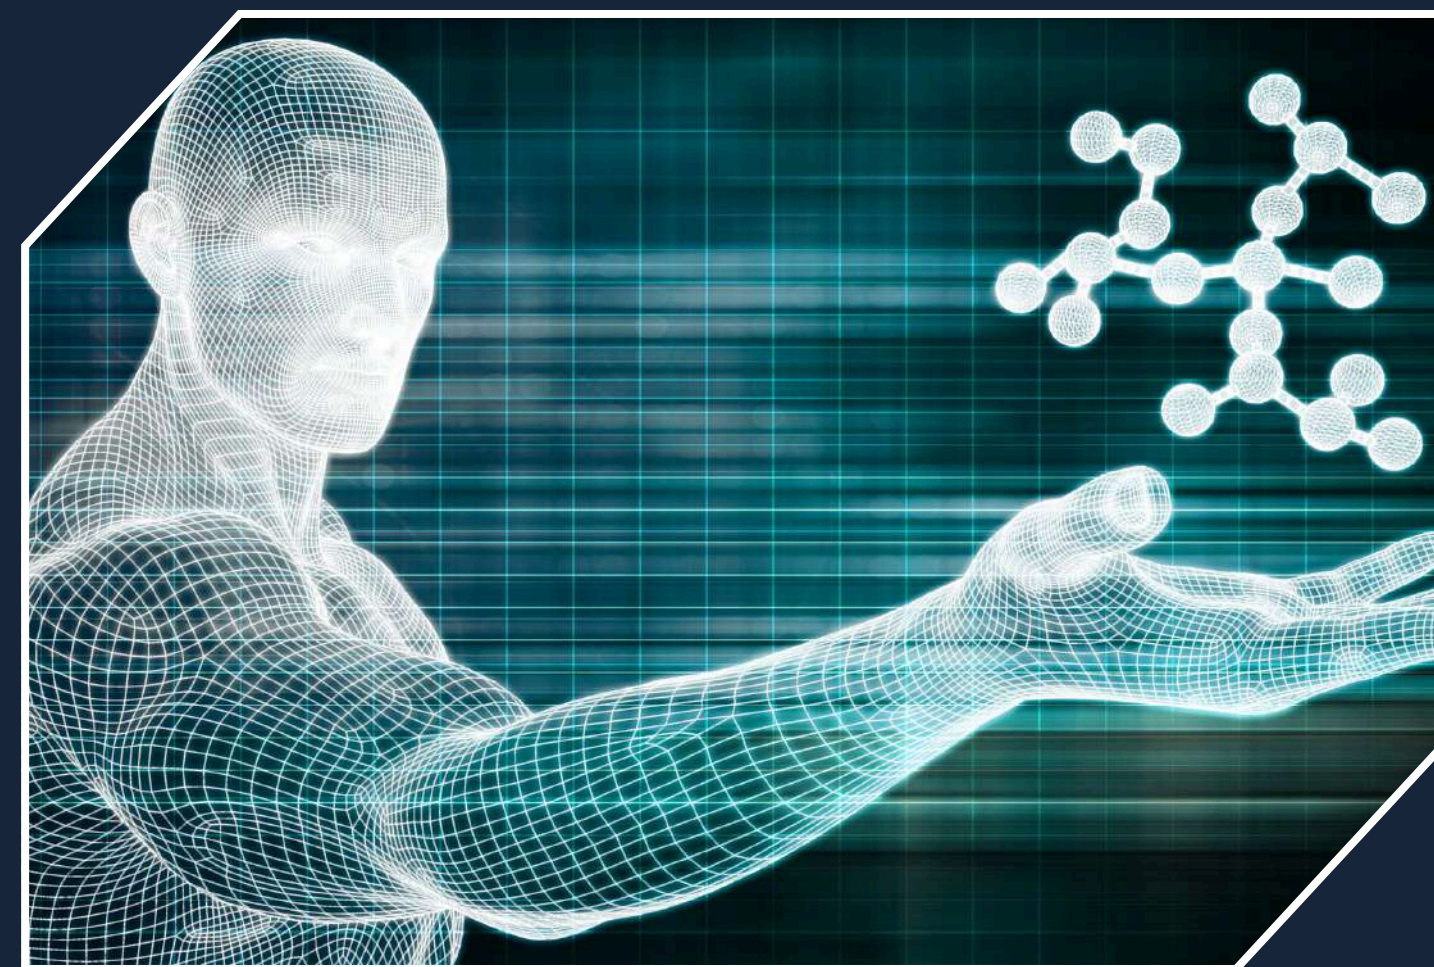

## A complex financial chart featuring a world map background. The chart includes multiple line graphs in white and blue, and a central section with red and green candlestick patterns. Numerous numerical data points are scattered across the chart, including 3231413, 1345, 3567, 7, 4, 37, 77, 446, 65, 537, 46, 43, 4867, 46, 74656678, 624, 4678, 4256, and 7. The overall theme is financial analysis and global market trends.

Launching Our Own Global Exchange – We are developing a unique, world-class crypto and forex exchange that will be the most customer-friendly platform in the industry. It will not only allow people to trade easily but will also integrate built-in earning features so users can generate consistent profits directly through the exchange.

# MINTABLE TRADE NATIVE COIN

Our own cryptocurrency will be launched with strong market strategies, backed by a powerful global trading team. Early investors will benefit from exclusive pre-sale offers, with the potential for our coin to grow exponentially in value.

# ADVANCED NFT PLATFORM

We will introduce a next-generation NFT marketplace where users can create, buy, sell, and trade NFTs with ease, integrating real-world assets, gaming collectibles, and metaverse items to expand earning opportunities.

# OWN FOREX BROKERAGE

As part of our future expansion, MintableTrade will launch its own Forex brokerage platform. This will allow traders and investors worldwide to access the world's largest financial market with complete transparency, advanced trading tools, and competitive spreads. By building our own brokerage, we ensure greater control, security, and profitability for our community. This project will create a new stream of income for both the company and our investors, making MintableTrade one of the few platforms offering an all-in-one ecosystem of crypto, NFTs, and Forex trading under one roof.

# AI-POWERED TRADING BOTS & GLOBAL PAYMENT GATEWAY

## AI-Powered Trading Bots

Cutting-edge artificial intelligence will assist in executing profitable trades with precision, reducing risk and maximizing returns for our investors.

## Global Payment Gateway

A fully integrated payment system that enables businesses to accept our coin and other cryptocurrencies worldwide, driving adoption and usage.

# REAL-WORLD ASSET TOKENIZATION

We will convert high-value assets such as real estate, gold, and art into blockchain tokens, allowing investors to own fractions of premium assets without the need for large capital.

# TERMS & CONDITIONS

## Terms and Conditions

01 Minimum withdrawal \$ 20
